LAKE MARATANZA PLAN APPROVED

State Water Power Commission Puts Off K. On Project To Supply Ellenville With More Water Which It Needs Badly.

The State Water Power Commission has approved the project of the village of Ellenville for acquiring and developing an additional source of water supply from Maratanza Lake, the purchase of which with about six hundred acres adjoining at a cost of \$10,000 was approved at a special taxpayers' election held in Ellenville on December 6.

Detailed plans for the development of the Maratanza Lake property will be submitted later to the Water Power Commission for approval, the commission stating in a memorandum recently handed down that it will require that such plans be submitted and approved by it before any work is started.

Tentative plans for the development of Maratanza Lake have been prepared which indicate that the work can be done for about \$40,000, but these plans recently have been revised by P. Edwin Clark, engineer for the village, who believes that with the probable reduction in the cost of such plans, the total expenditures can be materially reduced. No money for work on the development of this project has been appropriated, the water commissioners of the village desiring to wait for a further reduction in construction costs before submitting to the voters of the village the proposition for raising these funds.

Present Supply Described. According to the memorandum filed by the state commission, Ellenville has had a municipally owned water supply system since 1871. Water is obtained from two streams, known as the North and South Gully creeks, which flow in a northwesterly direction down the slopes of the Shawangunk mountains, to join Sandburgh creek, one just above and one in the village limits. On North Gully creek there are two reservoirs, one of 150,000 and one of 1.5 million gallons capacity, at elevations such as to give pressures of about 60 and 100 pounds per square inch respectively on the village mains.

The drainage area tributary to these reservoirs is approximately two square miles. On South Gully creek there is a covered reservoir of 50,000 gallons capacity, at the same elevation as the lower reservoir on the Northern creek. The drainage area tributary to this reservoir is approximately two miles.

Approximately in the center of the village is a well, 20 by 12 feet and having a depth of 25 feet, from which water is pumped from a pumping station adjacent into the general distributing system of the village.

"The watershed of North Gully creek is entirely uninhabited, forested and owned by the village," says the water power commission. "The water from this watershed appears always to be of good sanitary quality. The watershed of South Gully creek contains some boarding houses and several farm houses. Water from that shed has been found to be of poor sanitary quality, and is regularly and systematically treated with liquid chlorine. The well, situated near the center of the village, and not far from a polluted stream, gives water of poor quality, which also is chlorinated."

Maratanza Water Excellent. Maratanza Lake lies on top of the Shawangunk mountains at an elevation of 2,233 feet above sea level, 1,960 feet above the village. The lake has an area of about 25.25 acres and an estimated capacity of 64 million gallons. The drainage area tributary to the lake is about 198 acres. The village now owns part of this lake and the watershed tributary thereto, and proposes to acquire all of the lake and all of the tributary watershed. This watershed is open, somewhat barren country on which there are at present no buildings. The village authorities proposed to restrict the use of this watershed as much as possible and to allow no buildings to be constructed there. They will not allow boating on or bathing in the lake, and fishing will be prevented as far as possible.

"Under these circumstances," says the commission, "it would seem that water drawn from this lake should be of excellent sanitary quality. After it leaves the lake, this water will flow for some distance in North Gully creek and its tributaries. All of this distance will be in land owned by the village, and controlled by it, so that the danger of contamination of the water while passing through this area, seems remote. Water from Maratanza Lake will then be picked up by the existing reservoirs on North Gully creek and fed to the village by gravity. It is expected that there will be sufficient water so that only the upper reservoir need be used, which will give higher pressures on the mains, and thereby improve the fire protection. Such increase of pressure is desirable on account of the small size of the distribution mains in the village."

Alternative Sources Considered. Discussing alternative sources of supply, the commission points out that on account of the extremely precipitous nature of the watersheds now being used, development by the construction of additional reservoirs there would undoubtedly be expensive and there would be grave danger that the reservoirs would soon be filled with debris. Furthermore, it would be highly desirable to abandon the use of South Gully creek on account of the poor quality of water from that stream. In regard to the

HEALTH WORK IN ULSTER COUNTY

Data Gathered by League of Women Voters as to Mothers and Babies Shows No Child Welfare Stations or Care of Expectant Mothers and in Some Localities Difficulty in Getting Doctor.

During the past year an extensive survey of the work being done in each county of this state by different agencies for the promotion of health of mothers and infants has been carried on under the direction of the child welfare committee of the New York State League of Women Voters, through local volunteer assistance.

The survey just completed in Ulster county has been carried on through Miss Grace Roberts of Highland as chairman and a summary follows:

Ulster county contains 28 civil divisions (1 city, 20 towns and 7 incorporated villages), and has a total population of 94,212. Its rural infant mortality rate for 1921 was 68, that is, its babies under one year of age died at the rate of 68 out of every thousand. In the city of Kingston the rate was 76.

No supervision is given to expectant mothers throughout this county, and there are no child welfare stations, but some educational work in this line is done by the Home Bureau in Rosendale, Denning, Saugerties, Gardiner, Hurley and New Paltz.

There are four hospitals in the county which provide for obstetrical cases; one is in Woodstock and three in Kingston, where 70 cases were cared for last year. A physician is sent out for home deliveries in Kingston. An insufficient number of physicians for rural cases is reported in Denning.

The Home Bureau employs a nutrition worker in Saugerties and the manager of the bureau in Denning gives what time she can to instruction of this kind. A milk station is provided in this Saugerties. In several places lectures are given, and in Washington, Denning and Ellenville child welfare exhibits have been held. In Saugerties the Parent-Teachers' Association promotes this work.

DEWITT REFUSED PERMIT FOR NEWBURGH-MILTON BUS

Albany, April 22.—The Public Service Commission yesterday declined to issue a certificate for the operation of an auto bus line between Newburgh and Milton, to William L. Dewitt. The commission held that operation of a bus line by Dewitt was not necessary for the public convenience and necessity.

Paulinekill creek, the commission says, "it seems that this stream offers no advantages, except perhaps the possibility of a larger yield. To develop it will cost more than the proposed development of Maratanza Lake, and the water from it will require purification."

Legal damages that may be caused by the execution of the plans do not, in the opinion of the commission, require any special consideration or legislative enactment in order that they may be equitably determined and paid.

Make Exception for Ellenville. "In the past," says the commission, "the state has been loath to approve of a water supply application submitted to it prior to the appropriation of funds sufficient to carry out the project. Such appropriation has not been made in the present case. It seems, however, that Maratanza Lake and the surrounding watershed came suddenly into the market and that only by quick action could the village forestall the purchase of this land by adverse interests, which would probably have resulted in a materially higher price for this land when it became necessary for Ellenville to purchase it. On account of the high cost of materials and labor, the village authorities did not deem it wise to ask the people of the village to authorize the immediate development of this project, and asked only for an appropriation sufficient to enable them to acquire the land. In view of these facts, as it does not appear that Maratanza Lake could well be used as a source of supply for any other municipality, and, as it seems the logical and proper direction in which development of the existing village supplies should be extended, the commission deems it unnecessary in this particular case to require that the full development cost be appropriated prior to the making of its decision. It will, however, require proof prior to the initiation of any construction work that sufficient funds have been appropriated to carry the project through."

Summer Shortage Serious. Ellenville's population according to the last census was 3,116, but the summer population is estimated at from two to four times that number. The existing system supplies a yield of from 200,000 to 250,000 gallons a day, but the summer demand for water is at least 300,000 gallons a day. During last summer the yield became so small that serious condition was threatened. It was necessary to restrict the use of water so that it was not available for street sprinkling, sprinkling of gardens, washing cars or washing windows. "It is clearly evident that the people of Ellenville need a more ample supply of water," says the commission.

On the hearing before the water commission a month ago, the village was represented by Village President William S. Doyle, Village Clerk Charles G. A. Fischer and Village Attorney Cleon B. Murray. There was no opposition.

PROPER GIVEN BUS CERTIFICATE

His Perseverance Finally Rewarded—Authorized to Ply Between Cottekill and Kingston.

Albany, April 22.—Charles Proper was yesterday given a certificate by the public service commission for operating a bus line between Kingston and Cottekill, Ulster county, the certificate being granted without prejudice to future orders of the commission as to fare rates and service.

Proper is to operate over certain described streets in Kingston. He is directed not to carry passengers from point to point within Kingston.

Mr. Proper, it will be remembered, appeared before the council a number of times the past year seeking permission to operate a bus line from Lawrenceville and Rosendale to Kingston. Finally the common council granted him permission to appear before the public service commission, which rejected the application.

Following his being turned down by the public service commission, Mr. Proper decided to make still another application, changing the route to read from Cottekill to Kingston.

MONASTIR DEAD PLACED AT 500

By Telegraph to The Freeman.

Athens, April 22.—A river has been diverted through Monastir, where the great munitions explosion occurred Tuesday, checking the fires and small explosions that have been going on there since, according to word reaching Athens today.

The rescue work is now going forward rapidly. While great numbers were badly injured, the death list will not run as high as first reports had it. Advances today said that the total dead probably would not exceed 500.

CHARITY DANCE AT ALLABEN

Final arrangements have been made for the dance to be held under the auspices of the B. P. O. Elks, No. 550, Kingston, for the benefit of the Salvation Army home service fund at Shandegton Hall, Allaben, on Saturday evening, April 22.

The committee has been busy getting things in shape for a gala affair and a large crowd is expected. The entertainment committee has arranged an elaborate program for the occasion and, while the names of the entertainers have not been announced, a surprisingly interesting bill is promised.

Balfie's famous jazz orchestra of Kingston will furnish the music for dancing. The hall has been beautifully decorated. It is the largest in the upper Catskills and can comfortably accommodate a large crowd. It is conveniently located on the state road within forty minutes' drive from Kingston.

Dancing will begin at 8:30 o'clock. Refreshments will be served in the balcony.

AN INCORPORATION AND PAID UP CAPITAL STOCK

The Charles Ramsey Corporation has filed a certificate with the Ulster county clerk certifying that the amount of capital stock which is \$200,000 has been paid in full. The certificate is signed by Charles Ramsey, Alexander Campbell and Elsie C. Ackerman, a majority of the stockholders.

A certificate of incorporation has been filed with the Ulster county clerk of Walter Davenport, Inc., with principal office of business at Accord, town of Rochester. The capital stock is \$60,000. The purposes of the corporation is to operate, work and conduct a general farming and vegetable product and produce business, etc. Walter Davenport, Guy Davenport, Edward Davenport and Helen Davenport are the stockholders and directors.

Boosting Ulster Realty.

Newburgh, Kingston and the farm lands of Ulster and Orange counties are receiving a generous boost in a little booklet that is being distributed now to thousands of people all over the United States and even in foreign lands, urging them to make their homes on the profitable farms of this locality. This is part of a \$1,000,000 campaign launched by the E. A. Paige Real Estate Agency, Inc., of which the local representative is W. L. Burnett, who is sending the handsome folders to homeseekers in many states.

Entertainment at Parish House.

Holy Cross Junior Auxiliary have planned a very attractive program for their entertainment to be given Monday evening. Mother Goose's Gossings, a happy, rollicking, musical sketch, will come first, after which Mrs. Breilly will sing a selection. The next will be a gay musical number by nine children in pretentious costumes, entitled "The Jolly Gypsies." And last but not least will be "The Moon Boat." Dancing will follow, for which Cusack's orchestra will furnish music.

ACTRESS BURNED AT SAUGERTIES

Miss Carpenter At Benedictine Hospital, Not Likely To Recover—Costume Caught Fire in Dressing Room at Maxwell Opera House.

Miss Una Carpenter, the leading lady of the company which was presenting "A Night of Honolulu" was probably fatally burned in the dressing room of the Maxwell Opera House at Saugerties Friday night when the straw skirt which was part of her costume caught fire from a gas stove used in heating the room. She was rushed to the Benedictine Hospital in this city by Dr. John S. Kamp of Saugerties, where it was said today that her recovery is very doubtful. She sustained burns over a large portion of her body and face and part of her hair was consumed.

In one of the acts of the play Miss Carpenter was to appear as a Hawaiian dancer and her costume included a skirt made of straw. She was dressing the skirt in her dressing room Friday night when the skirt came in contact with a small gas stove used in heating the room.

Miss Carpenter's efforts to slap out the incipient blaze were not successful and before she realized her danger the entire skirt burst into flames which completely enveloped her. She screamed for help and threw herself on the floor of the room, rolling over and over in an effort to extinguish the blaze.

Lester A. Smith, the leading man of the company, heard her screams and burst open the door. Miss Carpenter was rolling and writhing on the floor, her costume a mass of flames. He seized some of Miss Carpenter's wraps which were hanging on a hook near the door and tried to wrap them around the blazing woman. Others who were on the stage came to his aid and after a few seconds succeeded in beating out the fire.

Several Saugerties physicians, were summoned by telephone, the first to arrive being Dr. John S. Kamp. He gave her first aid treatment to relieve her agony but fearing that she might have inhaled flame he wrapped her in clothing and placing her in his automobile hastened to the Benedictine Hospital, where she was given further attention by Dr. Kamp and Dr. John F. Larkin of this city. The leading man of the company, severely burned his hands while wrapping clothing around Miss Carpenter's body and in beating out the flames.

Nobody in the audience knew of what had taken place behind the curtain until the danger was past. A few very slight streaks of smoke filtered from behind the scenes into the auditorium but were not noticed by the audience. As soon as Miss Carpenter's flaming clothing had been extinguished, a member of the company stepped before the curtain and announced that on account of severe injuries which had been sustained by the leading lady it would be impossible to continue the play. The audience passed out of the theater quietly and when outside began to inquire about the nature of the injuries. Then they learned of the tragedy that almost had been enacted in the dressing room and of the danger through which everyone in the theater had passed.

HEALTH LECTURE AT P. T. A. NO. 6 MEETING.

The Parent-Teachers' Association of School No. 6 will hold a meeting on Tuesday evening, April 25. All members are urged to be at the school rooms promptly at 7:30 o'clock.

Following the business meeting at 8 o'clock, Mrs. Mills M. Acker of Hornell, N. Y., who has been secured from the state board of health, will give a talk on social hygiene. This lecture is free and all interested in child welfare work are cordially invited to attend.

Masons Leave for Utica.

A large number of Masons and their friends took advantage of the special excursion train which was run to Utica today and attended the Memorial Hospital dedication exercises. A special train which left Kingston at 7 o'clock conveyed the Masons and their friends from all along the Hudson river. The return trip will be made this evening, leaving Utica at 5:30 o'clock.

Home For Aged Directors.

A special meeting of the board of directors of the Home for the Aged will be held at the Home on Monday afternoon at four o'clock.

FRENCH PROTEST GERMAN REPLY

Contradicts Lloyd-George Statement That Incident Is Closed—Barthou Demands That Germans Be Made to Abrogate It.

Paris, April 22.—"France cannot accept the Geneva viewpoint that the violation of the Versailles treaty resulting from the treaty of Rapallo, is a closed incident," said an official statement issued by the foreign office today.

Premier Poincare again today denied reports that he intends to go to Geneva.

Genoa, April 22.—Germany's reply to the Allies regarding the Russo-German treaty was inadequate. It is declared in a letter which M. Barthou, head of the French delegation, today sent to Premier Facta, of Italy, president of the conference.

The French leader declared that the treaty violated the Cannes program. He demanded that the nine powers which signed the note addressed to Chancellor Wirth, calling Germany to account for signing the treaty, be asked to consider the German reply again.

The French and British are plainly at loggerheads. The British hold that since Germany accepted the alternative of banishment from the sub-committee dealing with Russian negotiations, that the incident is closed. The French are not satisfied with this.

Barthou also addressed a second note to the other Allied powers, stating that the treaty of Rapallo violates the Versailles treaty and demanding that the Allies force the Germans to abrogate it.

In the note to Premier Facta, Barthou declared "it is not necessary to retile the lying allegations of the Germans since they (the allegations) are disproved by the loyal and frank attitude of the inviting powers."

SCHERMERHORN HOUSE ROBBED

Mrs. Nicholas Schermerhorn of Cedar street reported to police headquarters this morning that some time Friday night someone had broken into her home, opened the safe and taken out \$400 in cash. Sergeant Hanley made an investigation and is still working on the case.

Entrance, according to Mrs. Schermerhorn, was obtained through a window. The safe, which stood in the kitchen, had been opened by use of the combination.

HUNGARY MANEUVERS TO MAKE OTTO FUTURE KING

By Telegraph to The Freeman.

Budapest, April 22.—Admiral Horthy, leader of the "Legionists," and Count Andrássy have agreed to institute diplomatic action, assuring that the Allied powers will grant recognition to Crown Prince Otto as King of Hungary.

Prince Otto will be proclaimed king but will not succeed to the throne for eight years, according to the agreement. In the meanwhile Admiral Horthy will continue as vice regent.

Y. M. H. A. Baseball Team.

CRISSINGER WARNS BANKERS

Another Period of Inflation and Tight Money Due, Unless They Cease Lending Funds for Stock Gambling, Says Comptroller of Currency.

Gainesville, Fla., April 22.—The country is headed squarely into another era of inflation and "tight money," unless American bankers stop lending funds to clients for speculative purposes, D. R. Crissinger, the comptroller of the currency declared here today in an address before the Florida Bankers' Association.

The speculative evil can be stopped, Crissinger said, if bankers will refuse accommodations to their clients and concentrate their banking power in the industrial and commonwealth world.

"It is of supreme importance," Crissinger declared, "that money and credit shall be available to sustain renewed activity in business. Bankers will serve their customers well if they exert their influence for moderation and against speculative business."

"Recent reduction of interest rates has been too generally regarded as an invitation to the speculative public to assume that easy profits are in sight. The first call for liquid capital must be made in behalf of the farmer, manufacturer, exporter and in general for the industrial and commercial community."

Fervent activity on the stock exchange featured by two million share trading on a single day is a dangerous signal that must be heeded to avoid a dearth of credit for business expansion, Crissinger said.

"The general business situation," he explained, "will not in the long run, be greatly benefited by merely marking up quotations of securities, absorbing cash and credit of the community into them at the new higher prices."

"If the people, in the hope of easy profits, invest their capital in speculative directions, they must understand that when speculative business is ready for increased activity it will be confronted with a dearth of ready capital, proportioned to the speculative activity that has gone before."

EMPLOYMENT ON THE INCREASE

By Telegraph to The Freeman.

Washington, April 22.—In the past thirty days employment figures have shown a decided and continued upward trend in all sections of the country. Today's bulletin from the President's Conference on Unemployment, based on figures from the United States Employment Service, states that for every 100 jobs available there are now 160 applicants, as against 226 in January.

In other words, where there was work for only 44 per cent of the seekers three months ago, there are now jobs for 62 per cent. Based on an estimate of 3,500,000 jobs, this means employment for 630,000 individuals.

In January there were 38 applicants placed out of every 100. For the first week in April the number has gone up to 50.

A TRIP TO CHINA.

Illustrated Lecture At Elmendorf Street Church.

The Rev. John R. Lyons, who has been a missionary in China for 8 years, will give an illustrated lecture at the Elmendorf Street Presbyterian Church Wednesday evening, April 26, at 8 o'clock. Mr. Lyons is secretary of the Chihli Shensi Educational Association also secretary at Peking for the Christ movement and is a young man not unknown to the people of Kingston as he recently conducted a Sunday service at the First Presbyterian Church. Mr. Lyons will bring with him Y. T. Lo, who has accompanied him to America to learn something of the customs here. Mr. Lo is a Chinese principal of Truth Hall, one of the oldest boys boarding schools in Peking with an attendance of 200. He will come dressed in native costume and will sing and speak both in Chinese and English, and will have with him a number of Chinese citizens which he will demonstrate and explain. This will be an excellent opportunity to find out what China's 400,000,000 people are thinking and doing.

At the Orpheum Theatre.

Beginning Monday the Mattie Stock Company will start the fifth week of what promises to be an indefinite engagement at the Orpheum Theatre. For the first half of next week, the three act comedy drama, "Love, Courtship and Marriage" will be the offering. There will be a daily change in the moving picture program and the usual vaudeville will be introduced between the acts, and matinees daily with two performances each evening.

Date of Strong Lecture.

The ladies of the Albany Avenue Baptist Church would remind their friends that the Rev. Dr. Philip B. Strong will give his lecture on "The Rise and Reign of Mother Goose," next Wednesday evening at the Church at 8 o'clock.

INJUNCTION OF P. R. R. UPHELD

As Result Courts Will Be Asked to Decide Whether Rail Labor Board Can Interfere in Negotiations With Road's Employees.

Chicago, April 22.—The United States Railway Labor Board lost its fight today to obtain dismissal of the injunction suit brought against it by the Pennsylvania Railroad. Judge Page, in the federal court, upheld the injunction granted the Pennsylvania, which means that the case probably will go to trial on its merits.

The Pennsylvania obtained a temporary injunction restraining the labor board from interfering in its method of conducting negotiations with its employees regarding wages and working conditions. The road charged that the board was operating virtually as a compulsory arbitration body and denied its authority so to act.

It is expected that the trial of the case will result in a court definition of the powers of the labor board.

IRISH GENERAL STRIKE CALLED

Fourth Faction in Irish Ruction Demands That Military Tactics Cease so Citizens Can Have Peace.

By Telegraph to The Freeman.

Dublin, April 22.—The city is prepared for a complete shutdown of all industry on Monday, as a result of the general strike called as a protest against the military tactics of the two factions of the army.

Even the city corporation has agreed to support the strikers. The mayor, in addressing the council, declared:

"Why not get rid of these Irish armies as we did the British. We can do without them. Let those bullets clear out, and then the people of the city will have peace."

Although the general strike has been called for the whole country, it is not expected that any places except the Nationalist centers will be affected.

Leader O'Connor of the mutineers has sent a copy of their "peace terms" to the secretary of the Dail, demanding that the Dail be the only government. He also demands that the elections be postponed and asks an answer by Sunday.

GAME ASSOCIATION PLACED 100,000 TROUT THIS YEAR

Fifteen cans of fingerling trout were received by the Ulster County Fish and Game Association from the New York state hatchery Friday, and under the direction of Carlton Preston, secretary of the association, were placed in streams in the Catskills. Fingerlings were placed in South Hollow, Malby Hollow, Dry Brook Valley, Phenicia, and in Woodland Valley and other streams. There were about 60,000 fingerlings in the lot distributed Friday, but previous to that about 40,000 of the trout were received from the state hatchery and placed in streams in the county.

FIRST OF NEW CANAL BARGES BUILT HERE BEGINS ITS SERVICE

"Robert W. Davis" To Be Used By Big Terminal Corporation In Rochester—Work Progressing On Several Others at Island Dock.

The new canal barge "Robert W. Davis," the first of the barges to be constructed by the Kingston Dry Dock & Construction Company for the Rochester Terminal & Canal Corporation, left here today for New York to load cargo for the barge canal. This is one of several barges to be constructed for the Rochester Company. Work on several others now being in progress.

The Rochester Terminal & Canal Corporation have a terminal sit in the city limits of Rochester about 3,800 feet along the line of the new barge canal, consisting of about 30 acres, and they are at work on new terminal buildings the cost of which will be over \$100,000. This terminal is now connected with the tracks of the Buffalo, Rochester and Pittsburgh and the Pennsylvania Railroads in Rochester, and will receive and ship freight from their terminal, and from the railroads via canal, and contracts have already been received for a large tonnage.

PORKY PIG

"You have such a dirty snout, grunt, grunt," said Miss Ham to Porky Pig.

"You have a very dirty snout too," said Porky Pig to Miss Ham, "and that is the truth."

"Your snout is covered with earth," said Sammy Sausage to Brother Bacon.

"And the same is true of you," said Brother Bacon to Sammy Sausage.

"Yes, grunt, grunt, the same is true of you."

"You have been digging in the ground, looking for seeds and something to eat for so long," said Mrs. Pig to Pinky Pig's mother, "that you have a snout which is covered with mud."

"That is just what you have," said Pinky Pig's mother, to Mrs. Pink Pig. "Sneal, sneal, that is just what you have."

"I am ashamed of you. How dirty you are!" said Master Pink Pig to Pinky Pig. "I am really ashamed of you, sneal, sneal, grunt, grunt."

"You needn't be ashamed of me," said Pinky Pig to Master Pink Pig. "You needn't be ashamed of yourself, sneal, sneal."

Then some people passing by the pig pen looked at the pigs.

"What dirty snouts they all have! Don't they look dirty?" the people said.

The people were riding by in an automobile and as they went by all of the pigs looked up at them but did not howl.

Neither did the people howl to the pigs, but they noticed them and they all spoke of how dirty the pigs looked.

"Some people," said Porky, "have so little sense. They think it is so fine to ride by in an automobile and see the scenery."

"They think it is disgraceful for us to look dirty. But I don't think so. We've been doing honest work. We've been looking for food. And after all a great many people spend a great deal of their time looking for food."

The KITCHEN CABINET

What seems to grow rarer to me as life goes by is the love and grace and tenderness of it, not its wit, and cleverness, and grandeur of knowledge—grand as knowledge is—but just the laughter of little children, and the friendship of friends and the cozy talk by the fire and the sight of flowers and the sound of music.—J. GOOD THINGS FOR OCCASIONS

To serve with a consommé or a light soup the following is especially good:

Bread Rings.—Cut bread into rings with a doughnut cutter after cutting the slices one eighth of an inch in thickness. Brush each with butter and sprinkle with grated cheese seasoned with cayenne. Put into a moderate oven to melt the cheese and lightly brown the rings. Arrange on a lace paper doilie.

Almond Cakes.—Cream one-fourth of a cupful of butter, add one-half cupful of sugar gradually, beating well, then the yolks of four eggs well beaten, one-fourth of a cupful of milk, and seven-eighths of a cupful of flour mixed and sifted with two teaspoonfuls of baking powder. Beat thoroughly and fill small paper cones two-thirds full of the mixture; sprinkle with shredded almonds and powdered sugar, place in a shallow baking pan and bake a delicate brown.

Apricot Coupe.—Drain a can of apricots and cut in small pieces. To the syrup add one-half cupful of sugar and let simmer three minutes. Add apricots and cook until the syrup is thick. Half fill glasses with vanilla ice cream, put in a tablespoonful of the apricots, cover with ice cream and garnish with strips of angelica and a few red bar le due currants.

Coconut Macaroons.—Take one tablespoonful of butter, add one beaten egg, one and one-half cupfuls of oatmeal, browned and ground, one-half cupful of sugar, one-half cupful of coconut. Mix well and bake in a moderate oven. Drop by spoonfuls on a baking sheet.

Popcorn Macaroons.—Take one cupful of freshly popped corn, put through the meat grinder, add one cupful of walnut meats, also put through the grinder. Beat until stiff the whites of three eggs. Add one cupful of powdered sugar gradually, beat well, add the nuts and corn with a bit of salt. Drop by spoonfuls on a baking sheet and bake in a moderate oven.

He Was Worried.—All who want to go to heaven please rise," said the Sunday school superintendent.

All rose except Johnny.

"Don't you want to go, Johnny?" he asked in surprise.

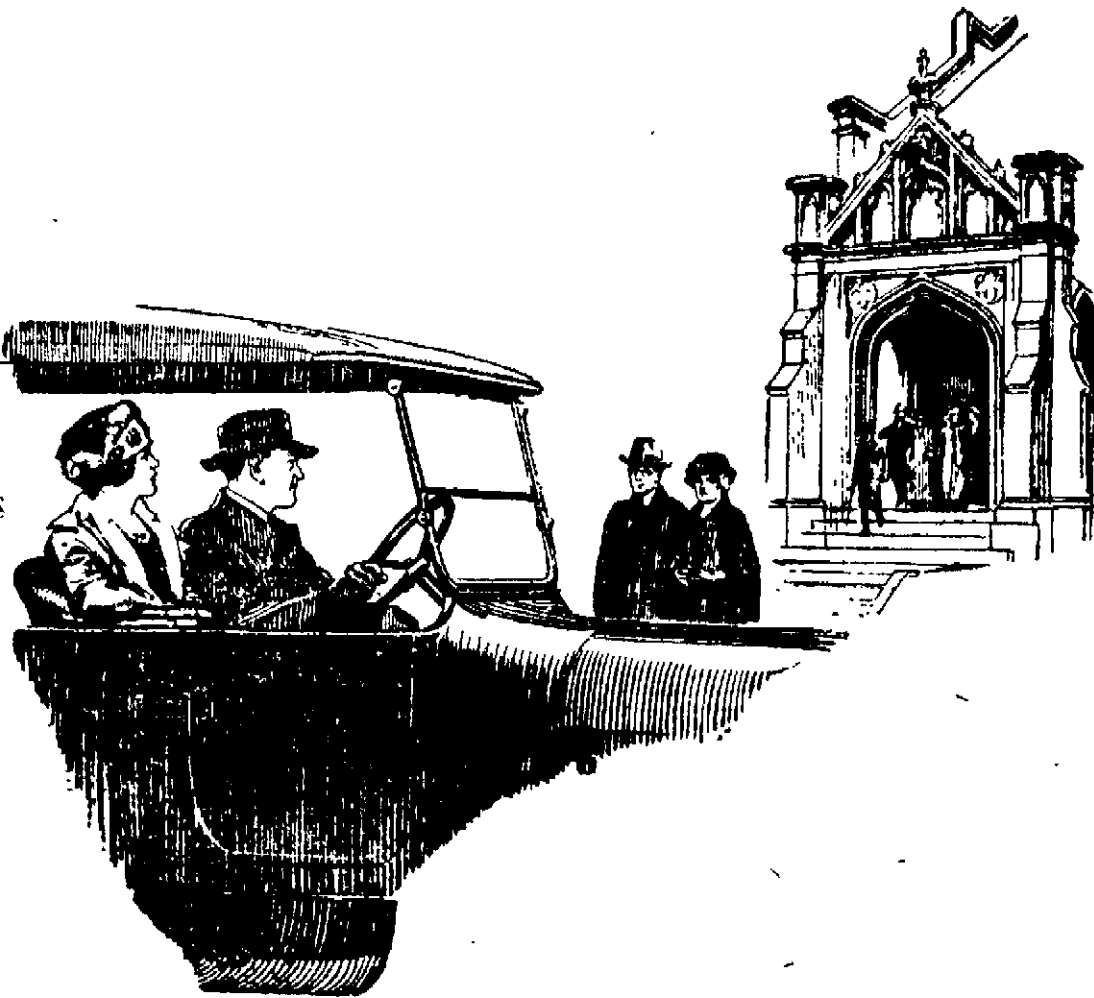

"Not yet."

Cultivate Optimism.
If inclined to be pessimistic, start in training so as to ultimately become an optimist. If the doctor says your liver is all right then give your brains a dry cleaning so you can think well of men and measures. Force a smile until it becomes a habit. Optimism is made of smiles.—Exchange.

Mean Much to Nature Lover.
The bird upon the tree utters the meaning of the wine—a voice of the grass and the wild flower, words of the green leaf; they speak through that slender tone. . . . No is it necessary that it should be a song; a few short notes in the sharp spring morning are sufficient to stir the heart.—Jeffries.

RAIL. SHOPMEN TAKE STRIKE VOTE

A. F. of L. Railroad Union, including switchmen, ready to fight out contracting issue by which roads trade labor board rules.

By Telegram to The Freeman. Chicago, April 22.—The menace of a railway strike involving the 100,000 members of the American Federation of Labor, loomed again today as officials of the department began sending out strike ballots to the membership. Decision to take a strike vote was reached at the special convention which has been called here for two weeks.

Seven unions are involved, including the Brotherhood of Railroad Trainmen, the Union of North American Switchmen, the Union of Railroad Firemen, the Union of Railroad Engineers, the Union of Railroad Conductors, the Union of Railroad Baggage and Expressmen, and the Union of Railroad Shopmen. The chief grievance of the men, according to R. M. Jewell, president of the department, is over the alleged violation by the railroad of the rulings of the United States Railway Labor Board, which the "farming out" system, the editing of railway shop work, the charging that the roads are contracting with outside shops to do repair work, are in reality resorting to subterfuge to evade the rulings of the board. The shops doing the work, it is pointed out, are outside the jurisdiction of the board.

"The carriers have been 'getting away with it' thus far," said Jewell. "We are going to find out if they can continue to do so." Jewell said that the result of the strike vote probably would be known within sixty days and predicted that the vote would be overwhelming in favor of a strike. He declared the issue would be fought to a finish.

THE WHEELS STOPPED BUT THE CARNIVAL WENT ON

Complaint made to Sheriff Kolts and District Attorney Traver that the carnival which has been in progress at the Ellenville fair grounds all week was displaying wheels of fortune which are prohibited by law, resulted in a visit to the carnival by Mr. Kolts and Mr. Traver on Thursday afternoon after the close of county court.

They found several wheels of a kind prohibited by law that had been in operation and directed that the wheels be removed or the carnival must close. The offending wheels and games were removed from the grounds and the carnival continued.

SCHERMERHORN'S MANY CONVICTIONS

Has Been Remarkably Successful in Staying Out of Jail, Even After Being Sentenced—Was Kept in Custody After Friday's Verdict.

For a young man of his age, Frank Schermernhorn, who was convicted by a jury in the Ulster county court Friday afternoon of grand larceny in the second degree, in stealing an automobile which belonged to John F. Herbert, on November 24, 1921, has had quite a lurid career.

The record of his various convictions could not be shown before the jury which tried him because he did not take the witness stand in his own defense, but they tell an interesting story.

His Convictions.

The record of convictions of the young man is as follows:

1915—April 6. Convicted of malicious mischief. Recorder Lang placed him on probation until June 1, 1915.

1916, July 10. Arrested for petit larceny, in robbing gum machines. Guilty. Recorder Lang sentenced him to the New York Catholic reformatory.

1917—February 28. Arrested for assault in the first degree. On April 3 pleaded guilty to juvenile delinquency. Recorder Lang sentenced him to Randall's Island. Paroled for one year.

1917—November 20. Arrested for juvenile delinquency in larceny and using profanity around the Y. M. C. A. Guilty. Discharged.

1920—March 12. Arrested for petit larceny in stealing rolls from a house on Van Buren street. Found guilty after trial. City Judge Schirck sentenced him to Randall's Island House of Refuge. Case appealed to county court, where Judge Fowler affirmed the judgment which never has been carried out.

1921—October 23. Arrested for violation of traffic ordinance in relation to speed. Pleading guilty and paid fine of \$5 which was imposed by City Judge Schirck.

Other Arrests.

In 1918 Schermernhorn was arrested on a charge of disorderly conduct on complaint of A. H. Gidderstern. In 1921 he was arrested on complaint of William D. Cashin on a charge of stealing an automobile, and also in 1921 on a charge of assault in the third degree.

Did Not Serve Sentence.

After Schermernhorn was convicted of petit larceny before Judge Schirck in the city court in March, 1920, the case, as shown by the foregoing record of convictions, was appealed to county court, where Judge Joseph M. Fowler affirmed the judgment of conviction. Ordinarily when a judgment of conviction is affirmed by an appellate court, the defendant serves his sentence, but Schermernhorn did not. On the plea that his father, the late Nicholas S. Schermernhorn, was ill and expected to die, the execution of sentence was postponed, and when his father died, the execution of sentence appears to have been further postponed.

Theoretically, Schermernhorn is serving a term of imprisonment on Randall's Island and has been since his judgment of conviction and sentence were affirmed by County Judge Fowler, but actually he managed to lead quite a lively career during that period.

Is Now in Jail.

After the jury brought in a verdict of guilty on Friday afternoon, Schermernhorn was remanded to the custody of the sheriff and was not paroled in the custody of the sheriff as erroneously stated in The Freeman Friday evening. Schermernhorn, therefore, is now in jail.

Report Grand Duchess Dead.

By Telegram to The Freeman. London, April 22.—The Grand Duchess of Mecklenburg-Schwerin is dead, according to a Central News despatch from The Hague.

A Dog's Devotion.

Lovers of dogs will be interested in the story told at an inquest at the London hospital on the body of a man who committed suicide by throwing himself out of a window. In a letter written just before his death he wrote: "My dog Teddy follows me about. He knows things are very bad with me. I do hope he will be taken care of. As I pass up and down my room he walks with me." A witness said that the dog was very fond of his master and always seemed to understand when he was worried and in trouble.

Mietzner-DuBois.

Mrs. Mrs. Rosa DuBois, of 9 Putnam street, Hartford, Conn., announces the marriage of her daughter, Cornelia Wurts to Peter Frederick Mietzner at Hartford, April 11, 1922. Mrs. Mietzner is a granddaughter of the late John P. Roosevelt of New York and Kingston. In August, 1920, Mrs. Mietzner graduated from St. Margaret's Hospital in Albany. Mr. Mietzner served in the navy in the World War.

Rosier-McIntyre.

The marriage of Miss Rose McIntyre, daughter of Mrs. Rosamund McIntyre of 279 Clinton avenue to Frederick George Rosier of Brooklyn, took place at high noon today at the parsonage of the First Street Reformed Church. The ceremony was performed by the Rev. Dr. Frank H. Seelye, pastor of the church. After a short wedding trip Mr. and Mrs. Rosier will make their home in a newly furnished bungalow at Queens Manor, L. I., a suburb of Brooklyn. The bride, a charming young woman, was for some time chief saleslady with the late William Wolven on Wall street, later with Lavinia dealer in ladies' wear and recently held a similar position with Weisberg at his specialty shop on Fair street, and by reason of her pleasing manners and courtesy made scores of friends among the ladies with whom she had business dealings. Mr. Rosier, the groom, is employed by the Federal government being connected with the Brooklyn post office.

In attendance at the Pan American Conference of Women at Baltimore are prominent women from all countries. Momentous problems of world affairs are being considered by the delegates. Those in the front row are Miss B. B. Gonzalez and Mrs. M. F. Gonzalez, delegates from Paraguay, and Miss Laura Neumes and Mrs. G. de Pumas, both from Cuba.

CAN MAP ROCKS FROM AIR

Aviator's Co-Operation With Geologist Is Lucky to Prove of Enormous Value Commercially.

The geologist of the future may use the airplane in searching for minerals in unprospected country. A. H. the geologist of the Canadian Institute of Mining and Metallurgy in Ottawa, K. L. Bode declared that he is enthusiastic over the possibilities of airplane maps and that on a trial flight he had been able to recognize easily the most striking geological formations.

"From the air it is possible to tell various areas by their color and by the general surface features that are characteristic of sections of country underlain by different types of rock," he said. "Granite can be distinguished from those rocks which are more favorable to the occurrence of economic minerals. Use of airplanes will relieve the geologist of a vast amount of work and would save a large part of his time. Areas of granite, which are not important economically, and those areas of deep gneiss cover where no rocks are exposed could be eliminated. It could thus free him for the exploration of the areas of promising rocks, and so extend the field covered by each season's operations. It would moreover, give him an idea of the most advantageous points for inland traverses and would show him the position of inland lakes which might be of use to him in fixing the boundaries of formations."

desirable law would be amended or repealed. Only of late has the extraordinary theory been put forward that there are laws too sacred to be criticized and that those who venture to criticize are public enemies. It is this extraordinary theory alone that is new, the position taken by Justice Bijor being based on long-standing American principle and involving no grant of new powers. This will be readily admitted even by those who abhor the very name of the Birth Control League.

Burroughs Nature Club Notes

What do you want to know about Nature Subjects? Send any questions of general interest to the Nature Notes Dept. of this paper, enclosing self-addressed and stamped envelope for reply.

Can You Answer These Questions?
1. How many eggs does the woodcock lay? An eagle? Blue jay, and what color and where is the nest?
2. Why is the Colorado beetle so free from bird enemies?
3. Is there any known reason why wild geese fly in a wedge shape when flocking?

Answers in Monday's Nature Notes.

Answers to Previous Questions.
1. Is there any rule for the number of eggs in bird's nests?
An average for the species, but tremendous variance among the different families and orders. Many sea birds lay but one egg, others two, and pigeons, hummingbirds, and usually eagles lay but two, at the other extreme are birds like quail, etc., that lay as many as eighteen. Four to five eggs is a common number among the ordinary small birds.

2. Are garter snakes useful?

Not useful. Their food is wholly confined to frogs, toads, and fish. Hence they do nothing to further the food supply of the farmer. Some of their prey is useful, catching insects, and we see no reason why the garter snake should be spared on the ground of its being "perfectly harmless." Of course that means only that it is non-poisonous.

3. Does the American pronghorn antelope shed the core of its horns, and if so, at what season?
The core is not shed. The horny sheath is cast in October or November, and shows itself to be quite thin at the base, where it is pushed off, though massive at the tip. When the "horns" are shed, the cores are not exposed bare, but found to have a dark, hairy skin, something similar to the velvet on deer antlers. But instead of peeling off, as velvet does, this hairy covering whose growth probably forces off the outer horn begins to grow and harden, eventually forming the new horns.

OUR DAILY PATTERN.

A Practical Outfit for the "Little One."

Pattern 3505 is here illustrated. It is cut in 1 size: 6 months to 1 year, 2, 3 and 4 years. A 1 year size will require 1 1/2 yard for the dress, 11 1/2 yard for the petticoat and 3/4 yard for drawers of 36 inch material. Muslin, rambric, nainsook and lawn are good for all of the dresses here portrayed. The material is of silk, henrietta, albatross, poplin, tingham or chambray, and the drawers of domot flannel.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

The Jewett Is Here

The Price Is \$1065

The New Jewett Light Six is now on exhibition in our show rooms.

To you, and everyone who is interested in motor cars, we extend a very cordial invitation to see this car and arrange for a demonstration.

And we do not hesitate to say in advance that you are going to be surprised, delighted and not a little mystified.

You are going to be surprised because the Jewett is all that you have imagined—and a great deal more.

You are going to be delighted because it is the very car that you have hoped for—and waited for—these many years.

You are going to be mystified because you will, for the first time, view a fine quality six at the price of a four.

To produce this car and sell it for \$1065, f. o. b. Detroit has required years of study and all the ingenuity and resources of the Paige Engineering staff.

It would have been a simple matter to compromise on four cylinder construction and thus achieve a popular price. But mere price was not the aim and the Four can no longer be considered in terms of fine engineering.

This is the day of six cylinders because the six is an inherently balanced mechanism. The natural balance and overlapping power impulses mean, smooth, even, vibrationless riding qualities.

These, in turn, mean maximum economy

because friction and vibration are the chief destructive agents in mechanics.

You have only to ride in the best four that was ever built to realize its fundamental imperfections.

The Four must "fight" to get under way. It delivers a series of vicious, stabbing blows on the crank shaft. In consequence, the entire car throbs and vibrates like a tuning fork.

How long, do you imagine, can any mechanism remain staunch and tight under such punishment?

Fours will "run," of course. But how do they run? And how much genuine satisfaction is there in the running?

Is it a nerve-racking chug-chug-chug or the soft, thrilling purr of overlapping impulses.

For these reasons, and many others, the New Jewett is a six with a mighty reservoir of fifty horse power.

It will sweep you over the road at sixty miles per hour, if you like, or amble along at three. And, at either pace, you will travel as sensible people want to travel—easily, smoothly, quietly.

In spite of its amazingly low price, the Jewett is a car of rare beauty, finish and appointment. It is a stinging rebuke to the common place designs of the popular priced field.

Best of all it is built as all Paige products are built to serve you faithfully and with deep respect for your pocket book.

But come in and see the Jewett for yourself. Come prepared to ride with us. For that is the one way that you can experience the thrill of commanding a fifty horse power six cylinder motor.

That is the one way that you can actually know and appreciate the Jewett.

SANTA MARIA COURT'S BANQUET

Catholic Women's Organization Celebrates Its Tenth Anniversary—Need of a Home of Its Own Begins to Be Felt.

The Hotel Stuyvesant was the scene of a brilliant social event Thursday evening when Court Santa Maria, No. 164, Catholic Daughters of America gathered to celebrate the tenth anniversary of their organization with an elaborate dinner served in faultless style by Miss Host Winne.

Covers were laid for one hundred and ten guests and the tables with their large baskets of ferns and yellow roses tied with broad purple ribbons and with festoons of narrow purple and gold braid ribbon extending the entire length of the tables presented a truly fairyland-like picture. The favors were little yellow baskets tied with small clusters of violets. The menu cards were of purple with gold lettering, thus carrying out the color scheme of purple and gold, the colors of the court.

The decorations, entirely handmade and very artistic, were in charge of the following committee: Miss Annie A. Cahill, Miss Winifred Sullivan and Mrs. Casper Cahill.

The evening's enjoyment opened with the singing of "The Star Spangled Banner" by the assembly. Throughout the evening Balle's orchestra rendered excellent music and between each course, the court, led by Mrs. Gertrude Q. Higley sang one of the popular songs, each member being furnished with a copy. Mrs. Higley as a "cheer leader" was a decided success.

Seated at the speaker's table were the first officers and the present officers of the court and the speakers of the evening.

At the close of the banquet, Mrs. Edgar T. Shultis, the first grand regent of the court, acting as toastmaster, a function she performed at the first anniversary banquet of the court, gave by special request in her most gracious and inimitable manner, a resume of the history of the court which was thoroughly enjoyed especially by the new members.

Mrs. Shultis in a most charming way introduced the first speaker of the evening, Mrs. Catherine L. McCutcheon, the present Grand Regent, who responded to the toast "Court Ideals." Mrs. McCutcheon pointed out the necessity of the Daughters owning a home of their own and the various uses to which it could be put. Among other ideals she mentioned educational lectures and praised the initial step in that direction undertaken by the educational committee and spoke in enthusiastic terms of the very inspiring lecture on education the Very Rev. J. J. Hickey, V. F., recently gave to the court. She said her list of ideals was as long as "the panels of the door" and the members were urged to come to the meeting to hear them.

Mrs. Margaret Gorman followed with a toast on "Charity." After mentioning the basic principle on which all charity is founded, and after commending the court for its charity—"its assistance with funds or with personal service" urged on the members the broader charity of the kindly, cheery word to those in need of the same, whether rich or poor and the withholding of the cruel, biting word of criticism. Mrs. Gorman stressed the greater practice of the second part of the great law—"thy neighbor as thyself."

Mrs. Mary S. O'Reilly Murphy who with Mrs. Agnes Murphy and Mrs. E. T. Shultis were the organizers of the court gave a toast to "Catholic Women" which was very well received. She paid a glowing tribute to Catholic Women's steady, worth and to her work very unostentatiously accomplished. Mrs. Murphy spoke of the Catholic Woman's refusal to accept the "isms" of the day and her firm stand for the sanctity of the marriage vow; thus safeguarding the home and through it civilization. She spoke of the Catholic Woman's strict adherence to God's rules and her love for home and country. Mrs. Murphy made a strong appeal to the court that they add one more to its numerous activities that of the formation of Girl Scouts' Troops as advocated by His Grace, Archbishop Hayes.

Miss Marguerite E. Fitzgerald, the first financial secretary of the court, then responded to the toast "Our Officers." After first, in a general way, eulogizing the capable and efficient leaders with which the court has been blessed since its organization, and the court's appreciation thereof, Miss Fitzgerald cleverly and eloquently in verse (with apologies to William Shakespeare) epitomized the work of each different officer and each grand regent's administration from the court's inception to the present time and bespoke for "Court

Santa Maria's bark" the accomplishment of greater good for God and country.

The toastmaster, Mrs. Shultis, very pleasantly introduced Mrs. Ella V. Leary, a past grand regent and district deputy, who very charmingly rendered "My Heart at Thy Dear Heart" by Saint Saens and gave as an encore "Long Ago in Alkali," which provoked peals of laughter. The assembly would not allow Mrs. Leary to be seated until she gave another selection, "Mighty Lak" a Rose," which was sung as only Mrs. Leary can sing it.

Miss Kathryn O'Connor, the first prophetess, and the next speaker, had as her subject, "Reminiscences," and after telling of the amusing incidents of Court Santa Maria's life brought her toast to a close with the assurance that our present grand regent "would be able to carry out everything she undertakes."

Mrs. Mary Miller, the past grand regent, followed with a toast, "Future Possibilities," predicting a brilliant future for the court and again emphasizing the need of the court owning a home of its own "where our girls might live, if needs be."

Then the toastmaster called on Miss Cloonan of Brooklyn, a local member, who had come so far to be with the court on this happy occasion for a few words, to which Miss Cloonan responded in a most genial manner.

The regrets of the absent speakers were then read by Mrs. Shultis, the toastmaster following which Mrs. Leary led all in singing "The End of a Perfect Day."

The toastmaster, Mrs. Shultis who presided during the evening with so much dignity and poise and who so humorously and fittingly introduced each speaker, gave the last toast, "To All Our Members," closing her toast with the following:

A health to you, a wealth to you, and the best that life can give to you. May fortune still be true to you and happiness be kind to you, and life be long and good to you, is my sincere wish to all of you.

Mrs. McCutcheon, the grand regent, then publicly thanked the banquet committee, consisting of the first officers of the court and the organizers, with Mrs. Edgar T. Shultis and Mrs. Mary S. O'Reilly Murphy, chairmen, for their work.

The truly delightful evening was brought to a close with the singing by all of "Till We Meet Again" and "Auld Lang Syne."

Maurice Byrnes

Maurice Byrnes, sixteen-year-old bank messenger, threw securities and cash totalling \$100,000 into the East river, he is alleged to have told New York detectives following his arrest. From the large amount of securities he is alleged to have disposed of he kept \$1,000 for himself, police declare.

His Reason.

A colored man said to his minister one day: "Sah, I could enjoy mah religion better if you would jes' say something new now and then instead of stamping round de pulpit and groaning." "What I lacks in lighting," said the minister, "I tries to make up in thundah."

Invest In United Hudson Bonds

Everybody knows that the service of the electric utility company is necessary to the daily life of the community it serves.

However, not everyone in this section, knows that the United Hudson Electric Corporation, through its interconnecting transmission system, supplies Electric Energy to every important electric company in the Central Hudson Valley.

And that over 80% of the security holders of the companies that constitute the Central Hudson System are customers and residents of the Valley. Here is another fact that most people do not know. Over 1,400,000 citizens of the United States have invested their money in the electric light and power business. It is believed to be a greater number than have invested in any other class of securities except Liberty Bonds.

Why?

Because the securities of properly managed gas and electric companies have proved to be safe and because the interest has been paid regularly year after year, during good times and bad.

Here is your opportunity to secure a first mortgage bond at a good rate of interest in one of the companies of the Central Hudson System. It is under the same management and control as the Central Hudson Gas & Electric Company. The bonds that are now being offered may be converted at the holder's option, into the 7% Cumulative Preferred Stock of the Company. Complete information at local office.

The Most Beautiful Car in America

These Cars Were Used—But Their True Value Remains

Our principal business is selling new motor cars. Necessarily we have acquired a number of used cars which have been traded in.

These used cars were not bartered for with the idea of selling them at a profit. They came to us merely as a part of our regular business—the sale of new cars.

The original owners of the trade-ins have naturally sacrificed something. The mere fact that the cars have been used, ever so slightly, necessitates such a sacrifice. But the real value of the car is still there unimpaired.

Consequently at the price we are able to offer them our used cars are truly a rare investment opportunity. In dollar-for-dollar value they are nothing short of remarkable.

Furthermore, when you buy a used car from us you are dealing with a responsible business concern that gives you all the facts about a car and will back up its statements.

We suggest an immediate examination of the opportunities our used car stock now offers.

We guarantee our used cars to be exactly as represented or money refunded

ROSENDALE.

Rosendale, April 22.—Mr. and Mrs. Edward M. Murphy and Mr. and Mrs. James Brown returned to their homes in Flatbush Easter Sunday after spending a pleasant week at the Mary Margaret Cortez, the summer home of the Murphys.

The energetic pastor of St. Peter's Church, Rosendale, was pleasantly surprised Easter Sunday at the large number of his old friends attending the devotion. The altars were prettily decorated with a beautiful display of Easter lilies and other flowers. The sacristan, Mary Smith, is worthy of a word of praise.

The Wynne cottage on James street has been opened for the Easter holidays. Good to meet old friends again.

Mary Brown of James street who has been ill, is much improved. Rosa V. Collyer of the Valley Inn,

had as a guest over Easter Miss Skelton of Manhattan. Valley Inn is a popular house with city folks.

Mrs. Danna of James street sold her cottage to city folks and expects to go to Long Island to live with her daughter.

Mrs. Bauer of James street had her daughter and little boy over Easter. The Bauer cottage has been completely renovated and it looks very home like.

Joseph Fischer of James street of the Strathmore, cottage has been transforming his grounds into pretty gardens. He is surely worthy of praise for the interest taken in beautifying the place.

Hupmobile

More than all else, the one thing that makes a man say, "It pays to own the Hupmobile," is the uncommon way it stays fit, with the least of expert tuning and tinkering; and the way it lasts.

Can you think of any other car, high priced or low-priced, that has the same kind of fine reputation everywhere?

WINSTON GIVES HARVARD SURPRISE

Defeats Captain Brown, All-American
Guard and Premier Hammer
Thrower, by Hurling the Shot 10
Feet 1 1/2 Inches in Virginia Meet.

James O. Winston, Jr., son of Mr.
and Mrs. James O. Winston of Al-
bany avenue, on Thursday placed
Kingston on the athletic map when
he won the shot put from Captain
Brown of Harvard, all-American
guard and premier hammer thrower,
at the big athletic meet between
the University of Virginia and Har-
vard staged at Charlottesville, Vir-
ginia.

News dispatches from Charlottesville
state that the surprise of the
meet was furnished by young Win-
ston when he tossed the shot three-
quarters of an inch further than
Brown of Harvard for a distance of
40 feet 1 1/2 inches.

Young Winston is a student at the
University of Virginia and is promi-
nent in athletics.

The meet was won by Harvard
scoring 69 to the 57 points annexed
by Virginia.

GIRL SCOUT CAMP THIS SUMMER

The Girl Scout Camp at Ideal Park
last summer was so well attended,
provided so much genuine and whole-
some pleasure and offered such ex-
cellent training that the Girl Scout
Council has engaged the same camp
for the coming summer.

Considerable new equipment will
be provided and an assistant leader
has been secured. This promises a
more ideal outing than was afforded
girls last summer.

This summer the privileges of
the camp will be extended to girls
not belonging to Girl Scout Troops
as well as to the regular Scout
members. This announcement is
made thus early in order that par-
ents and the girls themselves may
make their plans for this outing.

Newburgh Collects Garbage.
Collection of garbage in New-
burgh having been practically aban-
doned by Albert Woolsey, to whom
the contract was awarded, City
Manager McKay has notified the
Royal Indemnity Company, which
was on Woolsey's bond, that the
contract was forfeited and he would
hold the company for any expense
the city might be put to by reason of
Woolsey's failure. The bond is for
\$5,000. As a result of Woolsey
failing to carry out his contract, the
garbage is being collected by the
city, according to the Newburgh
News.

and considerable good clothing as
well as the general run of articles
found at any rummage sale. To-
night everything will be sold at the
lowest figure to close out the sale
which will end at 10 o'clock.

FORD COMPANY BREAKING RECORDS

Production of 120,000 Flivvers in
May Means a New One Every 6 1/2
Working Seconds—Demand Unpre-
cedented.

By Telegraph to The Freeman.
Detroit, Mich., April 22—All previ-
ous production records of the Ford
Motor Company will be smashed dur-
ing the month of May with a 120,000
car schedule, the office of Edsel Ford,
president, announced today, follow-
ing a conference of executives. Em-
ployment of 5,000 to 10,000 more
men is planned.

This schedule means a new car will
be made every 6 1/2 seconds for the 27
eight-hour work days.

The highest previous production
record was last August when 10,900
employees turned out 109,000 cars.

To meet the enormous increase
from the present schedule, the five-
day week plan announced by Edsel
Ford as permanent, may be aban-
doned, officials said. The factory
probably will be working on a six-day
week basis beginning May 1, they be-
lieve.

The demand for automobiles is un-
precedented, officials at the Ford
plant declared today.

Huge Silver Fox With Pelt Worth
\$2,000 May Be Killed.

A big silver fox, whose fur is val-
ued at \$2,000 by woodsmen who have
seen him, was observed near Lobach-
ville, Pa., recently.

The animal is believed to be the
same one seen several years ago at
Rockland and in the Oley valley,
eluding all efforts to trap him.

Hunters and trappers all over the
Lobachville region are hunting the
fox in the hope of capturing him.
The animal is of great size and his
fur and brush are said to be magni-
ficent in markings and color.
